## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-8 and 11-19 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 18 include limitations that a lamination layer in a scintillator-based imager comprises a lamination material selected from the materials listed in the claims. Claims 12 and 15 include limitations that a lamination layer in a scintillator-based imager comprises an optical absorbing material of the mentioned types and is disposed between a scintillator and an imager array.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kingsley, U. S. Patent No. 5,187,369, describes a radiation imaging system comprising a scintillator, an imaging array, and a lamination layer comprising polyetherimide (col. 7, lines 12-30).
